

MEET OUR CLINICAL NUTRITIONAL COUNSELOR

Stephanie Beall

Stephanie holds a Bachelor of Science degree in Nutrition and Food Sciences from San Diego State University, where she received a Certified Nutritional Counselor designation

and a State of California Nutritional Fitness Specialist certification. She has also been awarded a Clinical Nutritional Counselor certification by the School of Healing Arts in San Diego, and is a Certified Weight Management Consultant for Lifestyle Technologies, Inc.

She brings over seven years of experience in the field of Nutrition and Fitness Counseling to the YMCA of the Foothills, having worked for the majority of that time in the San Diego and La Jolla areas.

Stephanie says: "I really enjoy being involved in transforming people's lives through nutritional counseling and education. Food is the fuel of life and what we choose to eat can help prevent disease, delay signs of aging, energize us and increase longevity. I believe in education with real life situations to develop a realistic approach to lifestyle change and not just a "diet". I'm passionate about motivating clients to attain results and reach goals."

"To eat is a necessity but to eat intelligently is an art."

- La Rochefoucauld

FOOD PYRAMID

GRAINS	VEGETABLES
Make half your grains whole	Vary your veggies
Eat at least 3 oz. of whole-grain cereals, breads, crackers, rice, or pasta every day	Eat more dark-green veggies like broccoli, spinach, and other dark leafy greens
1 oz. is about 1 slice of bread, about 1 cup of breakfast cereal, or 1/2 cup of cooked rice, cereal, or pasta	Eat more orange vegetables like carrots and sweetpotatoes
	Eat more dry beans and peas like pinto beans, kidney beans, and lentils

FRUITS	MILK	MEAT & BEANS
Focus on fruits	Get your calcium-rich foods	Go lean with protein
Eat a variety of fruit	Go low-fat or fat-free when you choose milk, yogurt, and other milk products	Choose low-fat or lean meats and poultry
Choose fresh, frozen, canned, or dried fruit	If you don't or can't consume milk, choose lactose-free products or other calcium sources such as fortified foods and beverages	Bake it, broil it, or grill it
Go easy on fruit juices		Vary your protein routine – choose more fish, beans, peas, nuts, and seeds

Nutritional recommendations and menu plans are based on guidelines set by the United States Department of Agriculture.
